SAP Note

2881788 - End of SAP Business Suite 7 mainstream maintenance

Component: XX-SER-REL-ERP (Miscellaneous > Service Messages > Business Suite and SAP S/4HANA Release Information > Release Information for SAP ERP), Version: 7, Released On: 01.10.2026

Symptom

End of SAP Business Suite 7 mainstream maintenance

Other Terms

Information on maintenance of SAP Business Suite 7 required

Reason and Prerequisites

This note describes the maintenance strategy and maintenance phases of SAP Business Suite 7

Solution

To enable planning security and support a sufficient transition phase from SAP Business Suite 7 to SAP S/4HANA, SAP provides mainstream maintenance for core applications of SAP Business Suite 7 software (including SAP ERP 6.0, SAP Customer Relationship Management 7.0, SAP Supply Chain Management 7.0, and SAP Supplier Relationship Management 7.0 applications and SAP Business Suite powered by SAP HANA) until December 31, 2027.

This long-term commitment applies for the SAP Business Suite 7 core applications on the respective latest three Enhancement Packages (EhPs) (*), corresponding add-on applications, and for embedded SAP NetWeaver and SAP Business Warehouse components, unless an end of maintenance for such solutions had been already announced earlier, or there is already a follow-on release in place. See the SAP Release Brochure for more details.

(*) After 2025, SAP will provide mainstream maintenance for the latest three EhPs only. The SAP Business Suite 7 core applications without any EhP or on a lower EhP than the latest three EhPs require an upgrade to a more recent EhP to receive maintenance.

The table below (**) documents all EhPs for which maintenance is currently committed after 2025.

This new maintenance strategy as well as the timeline below prevails over any other deviating statement regarding SAP Business Suite 7 maintenance phase(s) in any other SAP document.

In case SAP makes available SAP Business Suite 7 add-ons provided by SAP Partners or other SAP Business Suite 7 third-party solutions, these add-ons or third-party solutions follow the SAP's Partner or third-party vendor maintenance strategy and might be excluded from this SAP Business Suite 7 maintenance long-term commitment.

Technical limitations and/or (general) restrictions might require an upgrade to newer releases of SAP Business Suite 7 related applications, enhancement packages, add-ons or other technical components.

Maintenance timeline for SAP Business Suite 7:

- Until December 31, 2027: Mainstream maintenance.
- Default: From January 1, 2028: Customer-specific maintenance.
- Optional: From January 1, 2028 to December 31, 2030: Extended maintenance. This 3-year extended maintenance phase comes at an additional fee on top of the respective support fee. For SAP ERP, private edition/tailored option, extended maintenance is included in the subscription fee and does not require any additional fee.
- From January 1, 2031 only customer-specific maintenance will be offered.

Please be aware, extended maintenance is not available for a subset of the customer installation only. It always applies to the full landscape of SAP Business Suite 7 core applications and all respective SAP Business Suite 7 Add-Ons.

Maintenance timelines for non-SAP database and operating systems are not affected by the maintenance strategy of SAP Business Suite 7. These timlines are set by the respective providers. For detailed timlines please refer to the SAP Product Availability Matrix and check if the respective OS/DB/Kernel configuration is listed in the technical release information tab. Specifically for database-related information please also refer to SAP Notes such as the following:

- SAP MaxDB: 1178367
- Db2 for z/OS (DB2): 2919991 & 81737
- Db2 on IBM i (DB4): 1174586
- Db2 for Linux, Unix and Windows (DB6): 1168456
- Oracle: 1174136 & 2606828
- Microsoft SQL Server: 3210087 & 62988

Details about the SAP release and maintenance strategy can be found in the SAP Release Brochure.

Please read SAP Note 1648480 for information on the required SAP NetWeaver version.

Please read SAP Note 52505 for general information about maintenance phases of SAP applications.

Please read SAP Note 3255311 for information about the maintenance startegy of SAP Solution Manager 7.2.

Maintenance for releases which were not aligned with the SAP Business Suite 7 maintenance phases remains unchanged.

For information on maintenance for specific releases please refer to the Product Availability Matrix at https://service.sap.com/pam.

Remarks about non-unicode/unicode support:

- SAP Business Suite 7 Core applications including EhPs on SAP Netweaver version up to and including 7.40 support non-unicode and unicode deployments.
- SAP Business Suite 7 Core applications including EhPs on SAP Netweaver 7.50 or later support unicode deployemnts only.
- For more details please refer to Knowledge Base Article 1896539 and SAP Note 1648480.
- The table below (**) documents all EhPs for which maintenance is currently committed after 2025 including non-unicode/unicode deployment support.

Other SAP notes or documents published before February 4, 2020 and describing a different SAP Business Suite 7 maintenance strategy will be replaced by this note (2881788) and may become invalid in whole or in part.

This note reflects the current status of planning and may be updated at short notice.

(**) After 2025, SAP will provide mainstream maintenance for the following SAP Business Suite 7 Enhancement Packages until December 31, 2027 and provide optional extended maintenance from January 1, 2028 until December 31, 2030:

- EHP6 FOR SAP ERP 6.0 (release level: 6.06) - support non-unicode and unicode deployments
- EHP7 FOR SAP ERP 6.0 (release level: 6.17) - support non-unicode and unicode deployments
- EHP8 FOR SAP ERP 6.0 (release level: 6.18) - support unicode deployments
- EHP2 FOR SAP CRM 7.0 (release level: 7.02) - support non-unicode and unicode deployments
- EHP3 FOR SAP CRM 7.0 (release level: 7.13) - support non-unicode and unicode deployments
- EHP4 FOR SAP CRM 7.0 (release level: 7.14) - support unicode deployments
- EHP2 FOR SAP SCM 7.0 (release level: 7.02) - support non-unicode and unicode deployments
- EHP3 FOR SAP SCM 7.0 (release level: 7.13) - support non-unicode and unicode deployments
- EHP4 FOR SAP SCM 7.0 (release level: 7.14) - support unicode deployments
- EHP2 FOR SAP SRM 7.0 (release level: 7.02) - support non-unicode and unicode deployments
- EHP3 FOR SAP SRM 7.0 (release level: 7.13) - support non-unicode and unicode deployments
- EHP4 FOR SAP SRM 7.0 (release level: 7.14) - support unicode deployments
